TOC Equipment Rentals

RENTAL AFTERCOOLER & MOISTURE SEPARATOR PACKAGE MOUNTED ON COMMON SKID

Model	AC3000
Flow (CFM)	3000 CFM
Maximum inlet pressure	250 psig
Maximum inlet temperature	250° F
Removal of solid particles	1 Micron
Discharge Air Temperature	10º Approach from ambient
Utilities for Motor	Compressed Air
Motor Horsepower	10 HP Air Motor Air Usage at the following Regulator PSI: 40 PSI = 80 CFM 60 PSI = 120 CFM 80 PSI = 160 CFM 100 PSI = 200 CFM
In & Out Air Connections	(2) 3" NPT Male Inlet (2) 3" NPT Male Outlet
Dimensions: L/W/H	108" L x 60" W x 72" H
Weight	1800 lb.

Moisture Separator

Coalescer type for removal of liquid water, oil, and solids to 1 micron

Aftercooler

- Aluminum core design to maximizing heat transfer and compact design
- Oversized to achieve lowest approach temperatures possible
- Portable Skid with Fork Slots
- Air Driven Fan:
  - Norgren Regulator
  - Norgren Lubricator
  - Norgren muffler/filter to trap oil from lubricator
